Campbell Reunion

The thirty-first semi-annual reunion of the Campbell society was held at the pleasant home of Mr. and Mrs. W. O. Jefford's in Hardwick June 21, 1913.

Although the morning was cloudy and every indication of rain, many started early, going by train, automobile and team.

There were fifty-four members and invited guests present. At noon the usual good dinner was served and all partook of it with unusually good appetites.

After the dinner was cleared away the afternoon was spent in the company gathered in groups on the lawn under the large pine trees and visited and playing games were greatly enjoyed.

After the lemonade was served it was soon time to start for home and all voted the host and hostess royal entertainers, and thus ended this happy meeting, which with many others will long be remembered.

He Should Worry.

Three students of philosophy sat on top of a high hill. One was a Pessimist, one an Optimist and the third had not declared himself.

While the first two were warmly discussing their opposing theories of life, a sudden gust of wind simultaneously lifted off three hats and sent them howling down the hill. The Pessimist and the Optimist gave chase, but their companion remained calmly sitting on top of the hill and watched the others running after the hats. Presently each procured his own hat and the Optimist picked up also that of the third man. Then they panted back up the hill.

"Whew!" gasped the Optimist, as he handed over the hat to him who still sat on top of the hill. "I guess you're an Optimist, too. You didn't seem to worry any."

"Why should I?" was the dispassionate reply. "I knew that 'mine own shall return to me.' You see, I'm a Fatalist."—Frederick Moxon, in Lipincott's.

Really Neat Retort.

While telling stories in the firelight on a recent afternoon the question arose: "What is the neatest and cleverest retort on record?" The claimants were many, but the following, which may not be familiar to some of our readers, was adjudged winner:

One day Douglas Jerrold and a friend, who were neither quite so sober as they might have been, quarreled, as men will under such circumstances. Next morning Jerrold, who had forgotten the incident, met the friend on the street, and raised his hat in greeting, as was then the manner. To his surprise he was "cut dead."

He pulled up in surprise. "My dear B—, what is wrong?" "Oh," said B—, in whom the memory of the quarrel still rankled, "I never raise my hat to a cad, Jerrold." "Don't you?" replied Jerrold, raising his hat again as he passed on. "I always do."

A Severe Sickness Leaves The Kidneys Weak

After recovering from a severe spell of sickness some time ago, I was all run down and suffering from poor blood. I would have pains in my back and hips and my kidneys bothered me all the time.

My blood became all right and after taking a few bottles, I was surprised at the effect it had on my kidneys. They were entirely cured and I have much to be thankful for that your great remedy did for me.

The Modern Woman

St. Johnsbury Caledonian

St. Johnsbury had a fine opportunity to see and understand what the class of the modern woman is and stand for this last week in the meetings of the Vermont Federation of Women's Clubs. The modern woman is a term that suggests things not entirely commendable like extreme dress, excessive affectation, extravagance and frivolity. But the ladies who visited this town last week are not of that class. It was a body of earnest intelligent women who realize the demand of service and who have seriously undertaken the performance of their duty.

A casual reading of the resolutions adopted at the meeting shows the character of work in which they have interested themselves and the stand they have taken on these subjects is strong evidence of their intelligence and devotion to the work they have assumed. It augurs well for public welfare when such a body of women can be organized for its promotion. It promises higher standards in public life, more careful and thoughtful development of the youth and better training for those assuming the duties of citizenship.

We still admire the real home making woman more than any other. Her service is a pressing necessity in our modern life and when successful her reward is better and sweeter than that of any other woman.

But we must admit that man is not capable of doing all of the best public work. Woman has shown herself capable of a high grade of public work and her public effort and influence are necessary to give the woman in the home more power for good. So we commend the club women of Vermont in the efforts they are making and wish for them many years of growth and development in Vermont's public life.

Concerns Country Merchants

Elizabethtown (N. Y.) Post

When a mail-order magazine admits under oath on the witness stand that his firm actually cleared over seven millions of dollars during 1912 from sales made in the rural districts of the nation, is it not about time that the country merchants were looking into the matter and preparing some adequate means of defense to combat this great national octopus which threatens to undermine the very principle of rural business, extending from the tiniest cross roads store to the biggest National bank in the country?

What are the merchants going to do about it? Is not this the logical question that should be faced by every man in business in the rural district today?

Recently, in Chicago, the government conducted an investigation looking into the conditions in the big mail-order houses, where women were paid starvation wages that were the stepping stones to vice and immorality, in order that the big profits might not be molested.

Same Road Re-located and Improved.

Beckley of Louisville, Ky.; Samuel H. Lea of South Dakota; Dell M. Potter of Clifton, Ariz.; C. C. Gilbert of Nashville, Tenn., and Col. Cameron.

Judge Lowe in his address declared that congress should not hesitate to appropriate money for good roads, as it has appropriated enough for rivers and harbors.

Aided Good Roads.

The inauguration of the parcel post did more for the good roads movement than any single action of the government in many years. The constitution specifically provides for the construction of post roads. That the parcel post cannot be successful unless the government exercises its power in improving the highways is accepted as a fact.

Good Roads in Texas.

The citizens of Montgomery county, Texas, recently voted bonds to the amount of \$250,000 to be used in constructing good roads in this county. Work will begin at the earliest possible date.

No Encouragement.

In considering roads remember that there are few towns that look so good to the farmer that he will kill his horse to get there.

Bad Roads a Tax.

Bad roads are a tax and a fearful limitation upon the business and social life of country people.

ROAD BUILDING

URGE NATIONAL GOOD ROADS

Recent Convention Adopts Resolution Proposing Highways From Washington to Capitals.

That national roads be built connecting Washington with the capitals of every state in the Union was the tenor of a resolution unanimously adopted by the national good roads federal aid convention at a session recently held in Washington. The resolution further advocated the creation, wherever they do not now exist, of "effective state departments in every state" for the construction and maintenance of good roads.

A proposition, made by William T. Page on behalf of Representative Sloop of Virginia, urging the ap-

pointment of a committee in the house of representatives to look after legislation affecting good roads, was heartily indorsed, although no formal action was taken.

Representative Moss of West Virginia criticised the tendency which, he said, seemed to characterize some of the speakers, to encourage class distinctions and similar "factionalism." His remarks followed addresses by several speakers who said the farmers were holding back the good roads projects because they believed them to be only "automobile roads."

"I believe the farmer is entitled to consideration," said Mr. Moss. "I think reckless drivers should have their licenses taken away from them. But I am also against the farmer who believes he has the exclusive right to the roads. The roads are for all the people, rich and poor. We should all stand shoulder to shoulder in this proposition and not encourage any factionalism."

Other speakers included Representative Kinkaid of Nebraska, Judge J. M. Lowe of Kansas City, Mo.; Pendleton

MR. JESSE SMITH of CARIBOO is his name. He is a little brother of the great woods; a friend of the wilderness. He is trapper, sailor, cowboy, ranger. He is a lover with a strong heart. Simple he is, and of quaint, abounding, unfailing humor. He will tell you of the lovely singer whom chance brought to the forest like himself, and how he fought for her. He will make his bow to you in a few days. Accept him as a fine, big, heartwarming comrade, for such indeed he is.

A MAN in the OPEN

is the new serial we have arranged to print. It is so utterly, so amazingly different from most stories you have read that you will thoroughly enjoy every instalment. Watch for it!
